

## Hedgehogs Home Learning - Year R / 1

Each week your child will come home with sheets to share with the sounds we have learnt in school that week. These are for your reference so you can share in their learning journey. There is space to practice writing the sound on each sheet. Can you find any words which start with each sound? Could you draw a picture of objects which start with that sound?

Please have your home learning folder in school each Friday so new sheets can be added.

If you have any questions, please feel free to ask.

## Hedgehogs Home Learning - Year 1

At the beginning of each term we will send home a home learning grid with 6 activities to complete over the course of the term. Please complete all of these activities by the last Monday of each term.

Each week your child will come home with sheets to share with the sounds we have learnt in school that week. These are for your reference so you can share in their learning journey. There are examples of words which contain our focus sound. Can you find the sound in any other words? Could you write a sentence for each of the words using the sound?

Please have your home learning folder in school each Friday so new sheets can be added.

If you have any questions, please feel free to ask.
